*real world training for real world missions*

## HELICOPTERS®

### **Special Operations Training in Real-World Environments**

Delivering the expertise of the most experienced crews in the world to your team, in your cockpit, anytime, anywhere.

## SRT Helicopters

SRT Helicopters is a full service Mission Training Company. We provide a broad spectrum of Mission Training Solutions and operational support.

Our location allows us to train either in the desert, mountains, or ocean all within a short distance of our facility.

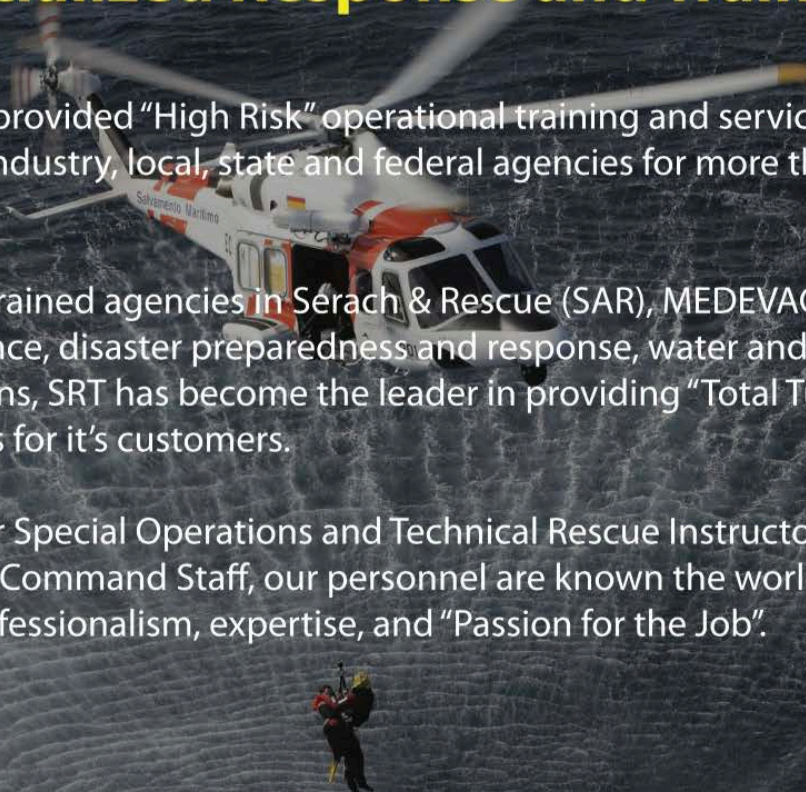

We have trained Special Mission Operators around the world.

We deliver the expertise of the most experienced professionals in the world, to your team, anytime, anywhere.

## Specialized Response and Training

- SRT has provided "High Risk" operational training and services to private industry, local, state and federal agencies for more than 20 years.
- Having trained agencies in Search & Rescue (SAR), MEDEVAC / Air Ambulance, disaster preparedness and response, water and tactical operations, SRT has become the leader in providing "Total Turn Key" solutions for its customers.
- From our Special Operations and Technical Rescue Instructors to our Incident Command Staff, our personnel are known the world over for their professionalism, expertise, and "Passion for the Job".

## TRAINING YOUR WAY!

SRT's training is customized to meet the needs of each customer's operational environment.

Our courses are NEVER a ONE SIZE FITS ALL!

SRT's **courses** are designed to enhance the current level of training and operational capability of any unit by providing a "Total Crew Concept" approach to training and implementation. This includes Rotary and Fixed Wing aviation and supporting ground elements.

SRT's **OPERATIONAL TRAINING DIVISION** staff is comprised of working professionals who respond to real world missions everyday, and are industry leaders in their respective fields. This ensures that our training methods and curriculum are current, relevant and designed to address real life operational scenarios.

A graduate of SRT will leave with an advanced skill set allowing them to face the challenges of any "Real World Mission."

From Ab-initio pilot training to Advanced Search and Rescue and everything in between, SRT has you covered.

## Special Operations Courses

Whether military, parapublic or a commercial operator supporting governmental operations, aviation units and their crews around the world are being tasked to support a variety of response roles, many being labeled "Special Operations."

Historically "Special Operations" are defined as operations conducted by specially trained, equipped and organized forces.

**SRT** is ready to be your partner in providing that specialty training.

### SRT's SPECIAL OPERATIONS Courses include

- Search and Rescue ( Hoist, Short Haul, Long Line / Vertical Reference )
- Combat Search and Rescue
